

E-SOLAR

Alternate Power Supply

From Encon Electronics

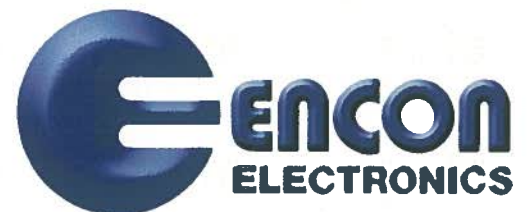

*Clean efficient solar energy made easy
with Encon's custom solar packages.*

Encon's E-Solar allows you to power gate operators, telephone entry and other related access control devices using cutting-edge solar technology.

Each E-Solar is custom built by one of Encon's knowledgeable technical representatives and the design is based on several variables including application, climate factors and usage requirements. There are 8 different kits available from 60W to 340W using 12 or 24VDC. All products featured in the E-Solar can be purchased as a custom package or separately.
