

Encon's presence felt at AFA FenceTech'11

Leading gate operator and access control distributor Encon Electronics was a prominent sponsor at this year's AFA Fencetech held at the Mandalay Bay Convention Center in Las Vegas, Nevada. Encon was featured on the cover of the Exhibitor Pocket Guide and led the Access Control section with an AFA tribute page followed by their company advertisement.

In addition, Encon Training Director Tim Nordstrom conducted an AFA seminar on Wednesday, February 9th prior to official exhibitor hours. Nordstrom provided an in-depth overview of UL325 and ASTM 2200 guidelines and regulations to a large group of over 50 show attendees.

Lastly, Encon Sales Director Joe Weber participated in the official AFA Access Control Demonstration Booth. After 35 years in the industry, Weber was an ideal candidate to work the booth. He offered knowledgeable technical training on solar installations to show attendees visiting the demo area.

Encon has been a leading distributor in the access control industry for over 27 years and boasts the most knowledgeable technical team in the industry. Encon has been actively affiliated with the AFA organization for years as an AFA member since 1995 and a Fencetech exhibitor for 11 consecutive years. They are also a huge supporter of the CAGOI certification program and offer an entirely certified technical support team. For more information about Encon and the products and services they offer, please visit www.enconelectronics.com or call 800-782-5598.
