

Encon Electronics invites you to attend our Viking Access Systems Seminar.

On July 28th, Viking Chief Engineer Daniel Perez will be here to introduce their newest product innovations and provide a review of their complete line of gate operators. In addition, you will be given a unique opportunity to provide input on their newest concept product lines and participate in hands-on demonstrations.

Jonathan Becerra, Vice President of Sales, will also be in attendance.

We look forward to seeing you on the 28th for this always exciting and entertaining seminar.
